

PERSISTENT

Partners in Innovation

Easy to Integrate

A simple SAIL expression rule enables the Bulk File Uploader capability to business tasks

Highly Configurable

Select the destination folder, maximum file size and the page title for the Bulk File Uploader

Secure

Appian User context maintained through the upload activity – encryption provides security and user context provides authentication for the upload

Bulk File Uploader

Persistent Systems' Bulk File Uploader

enables business users to select multiple files and upload them into Appian with one click.

The Bulk File Uploader can be easily integrated with existing SAIL Forms, effectively 'multi-file enabling' existing task forms in an Appian application. It is secure, fast and efficient. The accelerator works on mobile devices as well, making it a significant value-add for task forms with file upload requirements.

Persistent's Bulk File Uploader enables Business Users to upload multiple documents into Appian with just one click.

One-Click Upload

Select multiple files in one go, and click one button to upload – no more multiple clicks to upload multiple documents!

Drag and Drop!

Select all the files you need to be uploaded, drag the files and drop them into the Bulk File Uploader window!

Mobile-Enabled

The Bulk File Uploader works on iOS and Android devices as well!

Persistent Systems is a global company specializing in solutions, software products, and technology development services.
